Part No	72450LED	72452LED
Description:	12 Volt L.E.D Work Lamp, Trapezoidal Beam, 500 Lumens	24 Volt L.E.D Work Lamp, Trapezoidal Beam, 500 Lumens
List Price ex GST:	\$312.00	\$312.00
Barcode:	9314464124501	9314464124525
Outer Box Quantity:	1	1

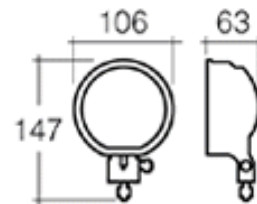

A first in the extensive Narva work lamp range, this lamp features L.E.D's designed for flood lighting 'to see', as opposed to traditional L.E.D's (such as trailer lighting) that are designed to 'be seen'.

The use of L.E.D technology delivers 500 lumen output and creates a more even and whiter light when compared with the 72450 rubber body work lamp of the same size. The use of L.E.D's means there is no filament to break, increasing reliability.

Combined with the die-cast powder coated aluminium housing, virtually unbreakable polycarbonate lens and stainless steel fittings, this makes the lamp ideal for the most rugged work environments.

With a current draw of just 1.2 amps at 12V or 0.5 amps at 24V, the lamp puts less strain on the battery and leaves more power for other vehicle requirements.

Includes stainless steel mounting hardware and is covered by a 5 year warranty.
